

NEED CLINICAL EXPERTISE WITHOUT INCREASING HEADCOUNT?

Build the team you need.

Keep the control you want.

Senior expertise. Flexible engagement. Real impact.

Do these challenges sound familiar?

Need senior leadership before a permanent hire?

Need extra capacity for a critical milestone?

Need independent sponsor-side oversight of CROs or vendors?

01
PEOPLE

Senior experts who integrate into your team.

Fractional leaders and embedded specialists across Clinical Operations, Regulatory, Medical/Safety, QA, Data Management and Biostatistics - selected to match your study, role and operational needs. Flexible scope and hours agreed upfront.

Flexible engagement formats

FTE

Dedicated expert supporting your program full-time.

Fractional

Senior expertise on a flexible monthly allocation.

Project-based

Specialized support for defined deliverables and milestones.

Interim leadership

Temporary executive support during growth or transition.

Why ExperTrials?

Senior-only network

15-30+ years of experience across Europe & North America

7-15 day turnaround

Typical timeframe to identify and qualify best-fit profiles

Expert-led qualification

Experience, qualifications and fit assessed against your needs

No upfront fee

No recruitment or placement fee

Flexible engagement today. Scalable delivery as your programme evolves.

Start with one expert or a defined assignment, then scale to an embedded team or full-service CRO as your needs evolve.

Need expertise without adding permanent headcount?

Request expert support

THE RIGHT LEVEL OF SUPPORT. THE RIGHT LEVEL OF DELEGATION.

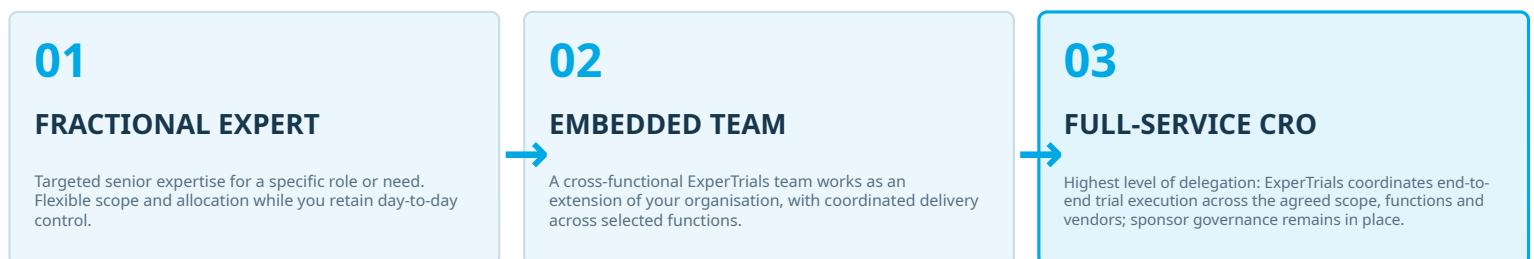

Scale as your needs **evolve.**

Start with targeted senior expertise, build an embedded cross-functional team, or delegate end-to-end trial execution to ExperTrials.

Expertise across your trial

A scalable delivery model

QMS & Systems support every delivery level.

Sponsor QMS and Clinical Systems can be added in parallel at any stage. They are enabling capabilities - not steps in the delivery model.

From one expert to full-service CRO.

Let's discuss your delivery model →
